

Drinking Water System

K5

Only one drinking water system is so advanced that it can eliminate nearly everything from your home's drinking water that isn't water: The Kinetico K5 Drinking Water Station.

- Certified to remove more contaminants than any other system.*
- It's customizable to your home's specific filtration needs.
- It's expandable as your water filtration needs change over time.

**2007 NSF certification among reverse osmosis systems.*

Warranty: 7 years on system and on RO membrane

1 PreFilter

The PreFilter removes chlorine used in large-scale municipal water treatment, as well as sediment particulates.

2 Reverse Osmosis Filtration

Water is forced through a semi-permeable membrane that filters inorganic contaminants like metal and nitrates.

3 FlexFiltration*

Revolutionary dual FlexFilters provide customizable filtration to tackle your water's individual filtration needs. Use any two of the following cartridges or none - the choice is yours.

Purefecta Guard

Removes 99.99999% of bacteria and viruses generating biopure drinking water.

Guard

Eliminates volatile organic compounds in water such as pesticides, paints and cleaning supplies.

Arsenic Guard

An added layer of protection for water that has been shown to contain higher levels of arsenic to ensure its complete removal.

Perchlorate Guard

Occurring as certain forms of manufacturing, perchlorate has been shown to have adverse effect on thyroid.

Mineral Plus

This cartridge allows you to add beneficial minerals such as magnesium and calcium to your treated water.

** Note: FlexFiltration is optional and is not included in the purchase of the standard K5 Drinking Water System.*

4 PostFilter

The PostFilter removes any remaining inorganic compounds that could cause foul taste or odour.
